

Master's programme in Information and Service Management	Department of Information and Service Management
Student Olli Järvinen 1018062	
Title of the thesis A Service Operations Perspective on Educational Efficiency: Benchmarking Aalto University School of Business	

The evaluation is based on the evaluation rubric, where each attribute's evaluation criteria is described (<https://www.aalto.fi/en/school-of-business/assurance-of-learning-at-the-school-of-business>). The grading scale used is 0 Fail / 1 Passable / 2 Satisfactory / 3 Good / 4 Very Good / 5 Excellent. If an attribute is not applicable to the thesis, n/a is marked.

	n/a	0	1	2	3	4	5
I Problem setting of the study							
1 Explication of how the study relates to a phenomenon or area of interest	☐	☐	☐	☐	☐	☐	☒
2 Specification of the research problem, objectives and/or questions	☐	☐	☐	☐	☐	☐	☒
II Contribution and the use of scientific methods							
3 Positioning of the research problem within the discipline	☐	☐	☐	☐	☐	☐	☒
4 Review of literature	☐	☐	☐	☐	☐	☐	☒
5 Development of a theory-based research framework, model and/or hypothesis	☐	☐	☐	☐	☐	☐	☒
6 Selection and justification of research methods, including potential research ethical considerations	☐	☐	☐	☐	☐	☒	☒
7 Selection and justification of research material or data including potential research ethical considerations	☐	☐	☐	☐	☐	☐	☒
8 Application of research methods	☐	☐	☐	☐	☐	☐	☒
9 Analysis and presentation of data/findings (including diagnostics)	☐	☐	☐	☐	☐	☐	☒
III Presentation and integration of the study							
10 Discussion and interpretation of academic and practical findings, including limitations	☐	☐	☐	☐	☐	☐	☒
11 Discussion of implications for environmental, social and/or societal sustainability, if relevant	☒	☐	☐	☐	☐	☐	☐
12 Academic style, language use and readability	☐	☐	☐	☐	☐	☐	☒
13 Consistency and coherence of the thesis	☐	☐	☐	☐	☐	☐	☒
IV Thesis Process							
14 Management of the thesis project	☐	☐	☐	☐	☐	☒	☒

Other factors contributing to the assessment n/a

Overall assessment and justification of the grade This is an excellent piece of work, a MSc thesis that shows excellent maturity in terms of different areas of scientific work. Particularly, the development of the conceptual framework and justification of related choices are of highest quality, rarely seen in a MSc thesis. Also, the findings are presented in a way that intrigues the reader into considering the studied topics in a profound way. The DEA method is used in a way that is advanced and suits well the purpose of the thesis. Possibly, implications on environmental, social or societal sustainability could have been considered, but those are not necessary as the scope is already wide and the thesis reaches excellent depth. The thesis manages to yield insights that are valuable to business school management but also to the wider research into the productivity of education.

Proposed grade 5 Excellent

August 14, 2026 Helsinki

Associate Professor Max Finne, Supervisor of
the thesis

Visiting Scholar Juha Eskelinen, Second
examiner of the thesis
